SUMMARY

A skilled Full Stack Developer specializing in .NET Core, Angular, PostgreSQL, and MongoDB. With a strong foundation in both backend and frontend development, I create robust enterprise solutions using modern tech stacks. My expertise spans across building RESTful APIs with .NET Core, crafting responsive user interfaces with Angular, and designing efficient database architectures using both SQL and NoSQL solutions.

SKILLS

Mobile Development
Advanced

Flutter   Android   Firebase

Firestore

Backend Development
Advanced

.NET Core   ASP.NET Core

Web APIs

Entity Framework Core

Frontend Development
Intermediate

Angular   TypeScript   HTML

CSS   JavaScript   jQuery

Bootstrap   Material Design

Database Technologies
Advanced

PostgreSQL   MongoDB

MSSQL   SQL Server

phpMyAdmin

DevOps & Tools
Intermediate

Docker   GitLab CI/CD   GitHub

RabbitMQ   Linux Server

Programming Languages
Advanced

Dart   C#   PHP   JavaScript

TypeScript   SQL

WORK EXPERIENCE (4)

Jan 2022 - Current

Android Flutter Developer (Remote) at

📍 **Karachi, PK**

Responsible for developing mobile application UI from given designs and integrating with Firebase/Firestore Database.

- Developed mobile application UI from given designs using Flutter

- Connected designed UI with Firebase/Firestore Database

- Worked with Flutter, Firebase, Firestore, and GitHub

Jul 2020 - Jan 2022

Android Developer/Full-Stack Developer at

📍 **Remote**

Eartheme mobile app helps buyers and purchasers find desirable properties on maps and communicate with sellers (Dealers/Owners).

- UI/UX finalization and implementation in Flutter

- Created web APIs in .NET Core 3.1 with EF Core and MSSQL/MongoDB

- Implemented CI/CD using GitLab and Docker on Linux server

- Worked with Flutter, .NET Core WebAPIs, MongoDB/MSSQL, RabbitMQ, Docker, GitLab

Jul 2019 - Aug 2020
Web Developer (Internee) at
📍 **Peshawar, PK**
Worked as an intern web developer focusing on designing, implementing, and monitoring web pages and sites.

- Designed, implemented, and monitored web pages and sites

- Collaborated with other developers to identify software errors and insufficiencies

- Worked on stored procedures in SQL Server

- Created ASP.NET Core Web API tutorials for beginners

Nov 2018 - May 2019
Developer (FYP) at
📍 **Peshawar, PK**
Developed online hotel management web application under university advisor supervision to resolve hotel booking and reservation problems.

- Developed hotel management web app using PHP, phpMyAdmin, JavaScript, jQuery, Bootstrap

- Worked in a team under university advisor supervision

- Focused on resolving hotel booking and reservation problems

- Improved hotel management efficiency through web-based solutions

PROJECTS (1)

Eartheme Real Estate
Jul 2020 - Jan 2022

Flutter   .NET Core   MongoDB   RabbitMQ   Docker   Ocelot   Nginx   Google Maps   GitLab CI/CD   Startup

- Developed full-stack solution with Flutter mobile app

- Created RESTful APIs with .NET Core

- Implemented real-time messaging system

- Integrated Google Maps for property location visualization

- Set up API Gateway using Ocelot for request routing and load balancing

- Deployed application using GitLab CI/CD pipeline with Nginx reverse proxy

VOLUNTEER

Jan 2023 - Current
Programming Mentor at Family Tech Support
Helped family members learn programming basics and solve technical problems.

- Taught basic programming concepts

- Assisted with debugging and problem solving

- Provided guidance on learning resources

- Full stack development mentoring

- Software development life cycle understanding

EDUCATION (1)

2015 - 2019

Bachelor of Science Computer Science at University of Agriculture, Peshawar

Mobile Application Development | Web Development | Database Management Systems | Software Engineering
AWARDS

2024

**Award of contribution in getting SAMA license for Hala Financing Company** at Esam Alnahdi (Chairman of Hala)
